

- Diagram illustrating that blowing (ブローイング) and glass wool (グラスウール) are not applicable for this type of insulation. The diagram shows a cross-section of a wall with insulation. A large 'X' is placed over the insulation area, indicating that these methods are not suitable. The text below the diagram reads: ブローイング施工不可 (Blowing construction not possible) and グラスウール施工不可 (Glass wool construction not possible).

電源線は断熱材の上を通してください。
